PROFILE

Aspiring Data Science and Software professional with a strong foundation in Computer Science and incoming MSc student in Artificial Intelligence & Data Science. Curious, analytical, and adaptable problem solver with experience working with data, systems, and cross-functional teams to deliver real-world solutions.

PROFESSIONAL EXPERIENCE

Christmas Customer Assistant, Marks & Spencer

Nov 2025 — Dec 2025

- Operated effectively in a **high-pressure environment**, adapting quickly to changing priorities.
- Collaborated with team members to deliver smooth operations during peak trading periods.
- Demonstrated reliability, attention to detail, and a strong work ethic.

Key strengths demonstrated: teamwork, adaptability, and time management.

Manager – Strategic Partnerships, AlmaBetter

Jul 2024 — Jun 2025

- Worked on **data-driven operational processes**, producing reports and maintaining high-quality datasets to support decision-making.
- Collaborated with cross-functional teams (operations, partnerships, and technical teams) to deliver outcomes against tight deadlines.
- Identified inefficiencies in workflows and **designed process improvements**, improving consistency and delivery speed.
- Solved operational and data-related issues by analyzing root causes and implementing structured solutions.
- Managed multiple priorities simultaneously while maintaining accuracy and service standards.

Key strengths demonstrated: problem-solving, collaboration, adaptability, and multitasking. Produced reports and maintained high-quality datasets

Manager – Strategic Partnerships, Masai

Aug 2023 — Jul 2024

- Coordinated complex scheduling, documentation, and data tracking activities across multiple projects.
- Worked in **multi-disciplinary teams**, balancing competing demands and adapting to changing requirements.
- Contributed ideas to improve internal systems and operational processes, enhancing efficiency.
- Took increasing responsibility for delivery, demonstrating ownership and accountability.

Key strengths demonstrated: adaptability, ownership, systems thinking, and collaboration.

Sales Executive – Amazon Pay

May 2022 — Jul 2023

- Worked with structured digital systems, ensuring **data accuracy and compliance** in all records.
- Managed high volumes of concurrent tasks while meeting strict performance and quality targets.
- Resolved customer and operational issues through structured analysis and clear communication.

Key strengths demonstrated: multitasking, analytical thinking, and customer-focused problem-solving.

EDUCATION

Keele University

Sept 2025

MSc Artificial Intelligence & Data Science

- Focus on **data science, machine learning, analytics, and applied AI**
- Strong alignment with digital, software, and modeling roles

Lovely Professional University

2020 — 2024

Bachelor of Engineering, Phagwara - India

Computer Science

Core areas: programming, data structures, algorithms, and software systems

TECHNICAL SKILLS

Data handling, validation,
and reporting
Collaboration in
multi-disciplinary teams

Analytical problem-solving
and logical thinking
Time management and
adaptability

Software systems
understanding

Process improvement and
optimisation
